Guidelines and Release Form

Welcome to the office of Disability Support Services (DSS) at Jacksonville University (JU). To be eligible for services at the DSS, a student must satisfy the definition of a disability as established by the Americans with Disabilities Act of 1973. **Section 504 defines a disability as a condition which substantially limits one or more major life activities such as learning, walking, seeing, hearing, breathing, caring for oneself, and working.** *To be eligible for accommodations, a student must provide appropriate documentation of each disability that demonstrates an accompanying substantial limitation to one or more major life activities.*

The following guidelines are provided in the interest of assuring that professionals' statement is appropriate to document eligibility for support services. The student with a disability must provide the office of DSS appropriate written documentation from a licensed professional in the field concerning the specific diagnosis and expected academic limitations.

The documentation must be within the last 3 years. However, the DSS reserves the right to make modifications to this time frame.

I, _____, hereby authorize the following information as well as any other pertinent documentation to be forwarded to the office of Disability Support Services at Jacksonville University for the purpose of determining my eligibility for academic accommodations.

AUTISM SPECTRUM DISORDER DOCUMENTATION FORM

Student's Name: _____

Date of Birth: _____

The student named above is applying for disability accommodations and/or services through the Disability Support Services (DSS) at Jacksonville University. In order to determine eligibility, a qualified professional must certify that the student has been diagnosed as having Autism Spectrum Disorder/Asperger's Syndrome and must provide evidence that it represents a substantial impediment to a major life activity. It is important to understand that a diagnosis in and of itself does not substantiate a disability. This documentation form was developed as an alternative to a traditional diagnostic report.

- The form must be completed with as much detail as possible as a partially completed form or limited responses will hinder the eligibility process.
- The assessment information is current:
- For students just graduating high school, an evaluation reflecting current levels of academic skills should have been administered while in high school
- For students who have been out of school for a number of years, documentation will be considered on a case by case basis.
- Completed by a professional who has comprehensive training and direct experience in the differential diagnosis such as a psychologist, neurologist or psychiatrist.
- The professional completing the form is not a family member of the student or someone who has a personal or business relationship with the student.
