\$1,200 or \$600
Who knew?

It's easier to find quality care and save money when you're informed before you go to the doctor, the hospital, an imaging center, an emergency room or a pharmacy. Our team of Care Consultants understands the big health care picture. Let us answer your questions about plan benefits, treatment choices, cost saving options, community resources and more. We're here to make your health care decisions easier and ultimately, save you time and money.

If you knew you could save hundreds of dollars on your treatment, would you? Of course!

When is a good time to call?

Anytime you need help making important health care decisions!

- Before you get medical treatment from a doctor or facility.
- Before you buy specialized or expensive medicine.
- The moment you have trouble getting care or coordinating care with multiple providers.

Who will you talk to?

Health experts who work together to save you time, money and hassle!

- Nurses.
- Plan Benefit Specialists.
- Community Resource Professionals.

What will you know before you go?

Your options for saving money and more!

- The cost for the same procedure, same quality, at different locations.
- Doctors and facilities in your plan's network.
- Medicines and pharmacies that may cost less.
- Benefit authorizations required for certain procedures and prescriptions.
